### **PelletPack®** Container

A bulk box replacement that combines the best features of a box with all the advantages of a Super Sack® bulk bag. Octagon in shape, lightweight, durable and stackable, the PelletPack container will not fail if wet, and is collapsible when not in use. Best of all, the PelletPack container provides handling, fill and discharge features that a box does not offer.

### **PelletPack® Plus** Container

Square in shape, with its innovative reinforced stacking corners and all of the features of the basic PelletPack container, the PelletPack Plus container is the 'ultimate' stackable FIBC.

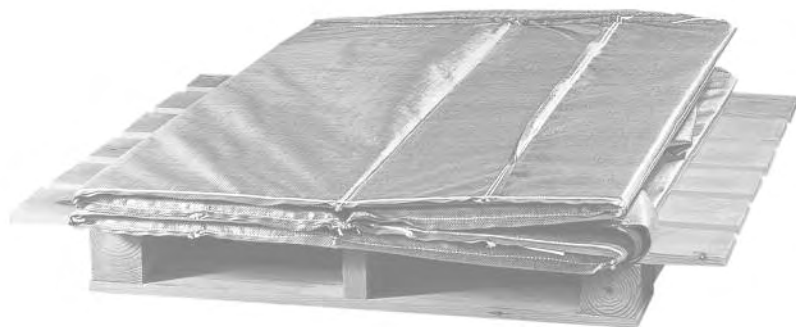

The PelletPack container is ready to use - just open and fill! It is lightweight and durable, and collapses for easy storage and handling.
